Business *can* be simple

COMPACT PERFORMER, WIRELESS CONVENIENCE

Compact yet powerful, the Canon imageCLASS MF4420w offers the home business owner the perfect mix of functionality and good looks. A stylish all-black exterior with classy matte finishing and a small footprint allows the device to blend perfectly into any work or home office environment, while seamless wireless connectivity and remarkably low-power consumption ensures the printer remains always ready for use. The Canon imageCLASS MF4420w gives you instant results and a professional performance, every time you need it.

HIGH-SPEED PRINTING & COPYING

Speed ahead with fast printout and copy speeds of up to 23 pages-per-minute (ppm) for A4 output and First Print & Copy Times of 6 and 9 seconds respectively.

SLEEK DESIGN, SMALL FOOTPRINT

Boasting an all-black design and a width of just 390mm, it fits easily into any home or small office environment.

FASTER PROCESSING, FASTER PRINTING

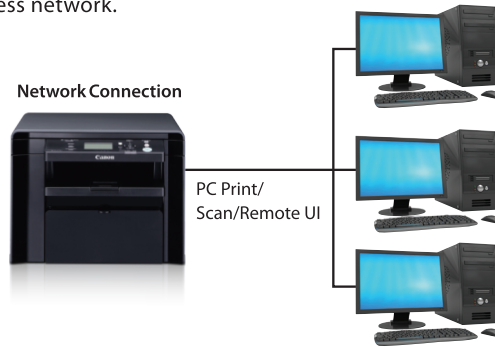

Balancing data-processing demands between the printer and the PC, Canon's UFR II LT™ print language greatly increases processing speeds, regardless of data size or print environment, facilitating high-speed printing.

NETWORK CONNECTIONS: BUILT IN WI-FI & ETHERNET

The imageCLASS MF4420w allows everyone in the office to print and scan directly from their PC, over a wired or wireless network.

INTUITIVE LCD PANEL

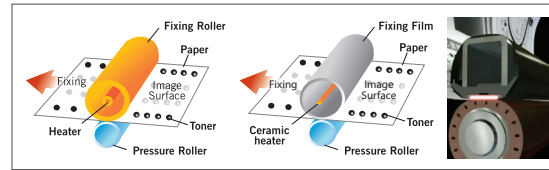

A new enhanced 5-line LCD display provides easier access to key information and features.

QUICK WARM-UP TIME

Canon's proprietary On-Demand Fixing Technology transfers heat directly to the heating element, reducing warm-up time to the bare minimum.

Traditional Roller Fixing On-Demand Fixing

Heating entire roller surface results in longer warm-up time and higher power consumption

Heat transferred directly to fixing film reduces warm-up time and saves energy

MINIMAL MAINTENANCE

The imageCLASS MF4420w is virtually maintenance free, thanks to Canon's All-in-One Toner Cartridge 328.

MINIMAL ENERGY & RESOURCE CONSUMPTION

Using just 1.9W in sleep mode, the imageCLASS MF4420w is economical in energy consumption. It also saves paper usage with resource-management features like 2-up and 4-up copying.

QUALITY TONER ENGINEERING

Adopting a spherical particle shape, MS-Toner achieves improvements in image processing performance, precise character and overall image quality. MS-Toner also improves melting performance, which assists On-Demand Fixing technology through the use of less heat and pressure.
