A
PERFECT COMPLEMENT
TO YOUR PRINT FLEET

The new imageRUNNER 1700 SERIES

– your multifunctional office companion.

The imageRUNNER 1700 series is the perfect fit for your office document needs. It is a printer, a color scanner, a fax machine all in one powerful and compact device. With exceptional print and scanning speeds of up to 30/40/50 pages per minute, the imageRUNNER 1700 series boasts both velocity and versatility.

So if you are looking for a multifunction device to match the pace of your productivity, look no further than the imageRUNNER 1700 series.

Compact yet powerful, the imageRUNNER 1700 series is equipped with many features usually available on the bigger A3 multifunction devices. It includes built-in Ethernet for network capabilities, USB 2.0 connectivity for direct scan-to and print-from memory media, as well as card-based authentication support for enhanced security.

Easy replacement of consumables minimizes downtime so you can get right back to printing quickly. The result is higher productivity and return on investment, with lower environmental impact and total cost of ownership.

Large, intuitive 5.7" touch screen LCD offers enhanced usability from the first touch. The high-contrast monochrome screen hosts a user-friendly interface that lets you switch between the menus and functions effortlessly. The tilt-table panel ensures a clear sight of the control from a wide range of viewing angles.

High paper capacity starts at 650 sheets default, upgradable to a maximum of 2,300 sheets without increasing device footprint. This ensures an uninterrupted paper flow for the most demanding of print jobs.

Multiply your productivity with COPY features.

Standard Automatic Document Feeder

Every imageRUNNER 1700 series device is equipped with an automatic document feeder, making it more convenient and productive when copying multiple document pages.

Finishing Features

The imageRUNNER 1700 series comes standard with the ability to group or collate your paper output. With an optional upgrade Stapler Finisher-H1, you can also automatically staple grouped documents or have the paper positions for each set slightly offset.

Enhanced Auto-Magnification

imageRUNNER 1700 series offers a wide zoom ratio range of 25% - 400%. Enlarge or reduce contents to fit your desired paper size automatically at the touch of a button. This helps to eliminate guesswork while promoting cost savings.

Duplex Printing

Duplex printing is available as default, so you can perform two-sided printing on your imageRUNNER and reduce paper costs by as much as 50%.

Print two pages on a single piece of paper to save precious resources

Integrated Network Printing

The new imageRUNNER 1700 series can be seamlessly connected to your office network as a network printer. With support for IPv6, these devices are also ready to meet your future network infrastructure requirements.
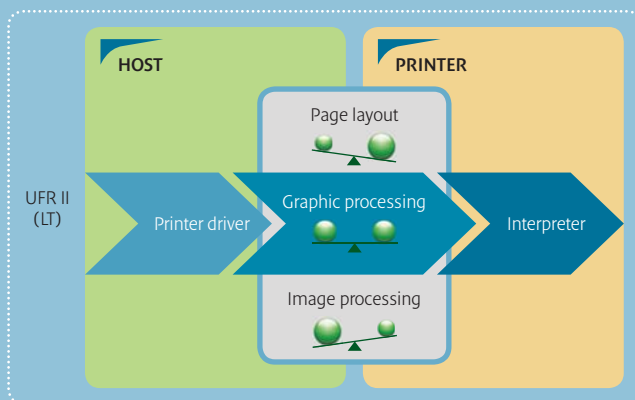

Standard network printing capability

Convenient Direct USB Memory Printing

With standard USB input, you can walk up to the device and print JPEG and TIFF files with your USB memory media on the spot.

Enhanced Digital Print

The new imageRUNNER 1700 series features a standard print capability of 1200 x 1200 dpi with Canon's innovative Ultra Fast Rendering II LT (UFR II LT) printing technology. It is an ideal blend of speed and simplicity for professional looking documents. Optional support for PCL5e/6 and PostScript are also available.

Communicate confidently with
NETWORK & SCAN features.

Color Network ScanGear

With Color Network ScanGear, you can easily edit or modify scanned images at your own workstation and create crisp, clear, and detailed colored images by utilizing the network in your office. There is no need for standalone scanners or dedicate a PC to a scanner, saving precious time and resources.

Distribute anywhere with Color Send

Sending of documents to your desired destinations can now be performed in a single operation. Just scan the originals and transmit them electronically to email addresses, shared folders, desktop PCs or faxes**, and in various file formats such as PDF, JPEG and TIFF.

* Color Send is standard for imageRUNNER 1730i/1740i/1750i; imageRunner1730 requires optional upgrade for this feature.

** Installation of optional fax board is required.

Searchable PDF

With the optional Searchable PDF Kit, you can create a Searchable PDF by enabling a scanned image to be text searchable. This reduces the time taken to search for keywords, especially within lengthy documents.

Scan and store directly to USB memory media

The new imageRUNNER 1700 series offers a new level of convenience with direct scan to USB memory media. You can convert paper documents to PDF, JPEG or TIFF formats and save them directly into a USB memory media.

FAX feature.

Add fax functionality with Super G3 Fax Technology

Send and receive fax messages with the optional Super G3 Fax technology by installing the optional fax board. The fast speed dramatically reduces your telephone charges, and is ideal for sending multiple pages using the one-touch (up to 200 one-touch dials) or group dialing functions.

Fax Forwarding

You will never miss important faxes with Fax Forwarding. Incoming faxes can be configured to route automatically to your desired location.

SECURE DEVICE MANAGEMENT

Remote User Interface and eMaintenance

The inbuilt Remote UI (Remote User Interface) enables administrators to access machine functions and settings from a web browser on a computer. And with eMaintenance, administrators can keep track of consumables, device usage and reduce tedious administrative work such as manual meter reading and billing verifications automatically. All these translate to lower downtime and higher productivity.

* eMaintenance works with most Canon copiers, printers and multifunction devices.
